Zeichnen ist eng mit dem Sehen verbunden. Die Linie notiert dabei die Wahrnehmung. Das Seminar *Freies Zeichnen* stellt die Freude am Umgang mit der Linie in den Vordergrund. Dabei geht es nicht um das exakte „akademische Zeichnen“, sondern um das Experimentieren mit dem Strich, mit unterschiedlichen Zeichenmaterialien und Formaten sowie der Suche nach spannenden Bildkompositionen. In praktischen Übungen wird das Auge geschärft und die Wahrnehmungsfähigkeit gefördert, um zu individuellen Ausdrucksformen zu gelangen.

Mit Hilfe experimenteller Methoden wird der Sehsinn irritiert oder sogar explizit ausgeschaltet. Über das Durchbrechen von Wahrnehmungsmustern werden verschiedene zeichnerische Ausdrucksformen erprobt und zu einem eigenen Strich gefunden.
